

 THE NEW STANDARD
 IN SPECIALTY

Noble's goal is to help you better understand both your condition and medication so that you have positive results from your therapy and maintain good health.

To achieve this goal, Noble provides the following key benefits:

Education on your unique condition.

Support for other conditions and symptoms you may have.

Access to courteous, educated staff members who will make the ordering process easy and the experience positive.

Communication with your doctor regarding the important details of your care for faster intervention, as required.

Mandatory Specialty Drug Program:

●● Effective July 01, 2018, as part of your prescription drug benefit plan through *Tri County Schools Insurance Group*, you are required to use ProAct's specialty pharmacy, Noble Health Services, Inc., for all specialty medications.

Noble provides specialty disease management for patients living with complex and chronic conditions. Our experts at Noble strive to support patients in all aspects of therapy and always provide the utmost care, from prescription needs and medication therapy management to financial guidance.

▲ PERSONALIZED CARE

The Noble team starts working with you as soon as we receive the prescription from your physician. Our team wants to make sure that you understand your medication and are comfortable with your therapy from the start.

▲ COPAY ASSISTANCE

At Noble, we have a team dedicated to making sure you pay the lowest price possible for your medication. Our patient benefits team researches available options to help ease the financial burden for our patients. These options include copay/patient assistance programs and charity organizations. Our team searches for a way to lower the out-of-pocket price on every prescription, *for every patient, every time.*

▲ CLINICAL MANAGEMENT PROGRAMS

Our clinical support team is available to help you better manage your care. The team helps coordinate injection training, provides one-on-one coaching, support, and more. Our clinical team is available 24/7/365.

▲ DELIVERY

We deliver your medication where you need it. This could be to your home, work, or physician's office. Our advanced logistics system helps ensure that your medication arrives on time.

▲ FREE ANCILLARY SUPPLIES

We provide free ancillary supplies to help you safely follow your treatment plan at home. Supplies include syringes, sharps containers, alcohol swabs, bandages, and educational materials.
