KAISER FLU SHOT CLINICS

FLU UPDATE

Information about the flu season

KAISER PERMANENTE.

Flu season is right around the corner. This is always a busy time for our facilities, and this year we have the added challenge of the COVID-19 pandemic. This year, we've set up safe drive-through, walk-in or walk-up flu shot locations beginning **Monday, September 21**, at the below locations. To help manage the number of vaccinations we anticipate providing, we ask that members let us know when they plan to arrive by scheduling their flu shot at kp.org/flu. Members can also call 1-800-573-5811 for the latest flu vaccination information.

Members attending in-person office appointments will be offered flu shots during their visit. We encourage ALL physicians and employees to get flu shots early in the season and let's spread the news to our members and patients to do the same. Early vaccination will allow enough time for the flu vaccine to establish itself in your system and help you stay healthy into the winter months when influenza peaks – the time when you're most needed by your families and our communities.

Thank you for your cooperation, and for everything you do to care for our members and each other.
